

# Introdução às tecnologias Web - ITW

Prática 1 – Formação de grupos & Instalação de software

# Sumário

## Objetivos

- Instalar o Visual Studio

- Criar o Projeto ITW2022

- Adicionar diretórios para as várias aulas

- Criar os ficheiros num diretório

# Aulas práticas

## Como nos organizamos?

As aulas práticas são realizadas em grupo de 2 estudantes.

A organização dos grupos será efetuada na primeira aula e (salvo justificadas alterações) manter-se-á ao longo do semestre.

Os trabalhos e testes de grupo são avaliados apenas num dos computadores e a nota atribuída aos dois elementos do grupo.

A nota do trabalho de grupo pode não ser igual para os dois elementos caso seja notória a falta de empenho de um dos elementos do grupo.

# Visual Studio – validar a instalação

A versão free do VisualStudio funciona durante três meses. Ao fim desse período experimental de três meses (+/- no final do semestre), só funciona depois de inserir uma chave válida.

Os alunos podem pedir essa chave e devem aplicá-la durante ou logo após a instalação do produto.

Numa edição anterior desta disciplina uma aluna foi para exame e o VisualStudio não funcionou porque não tinha inserido a chave de validação quando instalou o software...

Windows 11 Education, version 22H2

Windows 11 Education builds on Windows 11 Enterprise and provides enterprise-grade manageability and security for schools. Windows 11 Education is effectively a variant of Windows 11 Enterprise that provides education-specific default settings. Not all devices running Windows 10 are eligible to receive a Windows 11 upgrade. See the Windows 11 device specifications (<https://www.microsoft.com/windows/windows-11-specifications>) for upgrade requirements and supported features. Certain features require additional hardware. WARNING: Installing Windows 11 media on a PC that does not meet the Windows 11 minimum system requirements is not recommended and may result in compatibility issues. If you proceed with installing Windows 11 on a PC that does not meet the requirements, that PC will no longer be supported and won't be entitled to receive updates. Damages to the PC due to lack of compatibility aren't covered under the manufacturer warranty.
